

Product Data Sheet *RevoSport 12*

Product description

This 12mm thick pad is designed as a shock pad layer for use as part of either a synthetic hockey or football pitch, plus facilities where more than one sport is going to be played on the facility. This multi-sport type of facility often comprises a full-sized pitch for the **principal sports usage, with cross pitch usage** for secondary sports requirements. This pad is also suitable for use on **MUGA facilities**. It is made using 100% recycled, and recyclable, foam trim products at our UK production plan.

Product specifications

- Shock Absorption > 46% (+/- 3%)
- Vertical deformation > 6mm (+/- 3%)
- Energy Restitution > 38.5% (+/- 3%)
- Porosity > 12,000mm/h (+/- 3%)
- Tensile Strength MPa > 0.17 (+/- 3%)
- Elongation > 68 (+/- 3%)
- Overall Dimensional Stability <0.25% (+/- 3%)
